ONTARIO, SECURITIES COMMISSION

FOR

July, 1974

Issued Monthly by the
ONTARIO SECURITIES COMMISSION
555 YONGE STREET, TORONTO, ONTARIO M4Y 1Y7

EXPLANATORY NOTES

Information contained in this report has been summarized from reports filed with the Commission.

The name of the issuer is followed by a brief description of the class of security, the name of the person or company reporting and his or its relationship to the issuer. If a person has an indirect interest in the securities reported, e.g., through holding companies, affiliate companies, partnerships, trusts or other entities, this is shown. Symbols are used in the column "Transaction and Ownership Symbol" to indicate the nature of ownership i.e., direct or indirect. Similarly the character of transactions is indicated provided the transactions are other than a purchase or sale. (See guide to symbols below):

GUIDE TO SYMBOLS

RELATIONSHIP

(appearing after the name reported)

"B"	—Beneficial Owner (direct or indirect) of equity shares of a corporation carrying more than 10% of the voting rights attached to all equity shares of the corporation outstanding.
"D"	—Director of principal company.
"DI"	—Director of a company which is an insider of the principal company.
"K"	—Exercises control or direction (direct or indirect) of equity shares of a corporation carrying more than 10% of the voting rights attached to all equity shares of the corporation outstanding.
"S"	—Senior Officer of principal company.
"SI"	—Senior Officer of a company which is an insider of the principal company.

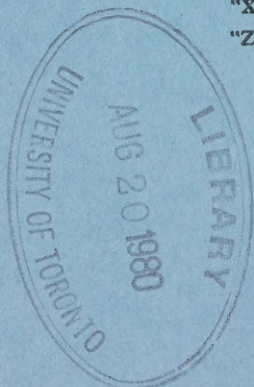

NATURE OF OWNERSHIP

No symbol	—Securities are beneficially owned directly.
Symbol # 1	—Securities are beneficially owned by the reporting person or company and held by a company partnership, trust or other entity.
Symbol # 2	—Reports filed by companies, persons, partnership, trusts, associations, etc., who are the beneficial owners and are not, under the definition of an insider, related to any director, senior officer or other beneficial owner of the securities of the issuer.

CHARACTER OF TRANSACTION

No symbol	—purchase or sale	"M"	—internal transfer
"A"	—bequest or inheritance	"Q"	—qualifying share
"C"	—compensation	"R"	—redeemed (called, Matured)
"E"	—exchange or conversion	"T"	—stock dividend
"F"	—exercise of rights, etc.	"V"	—stock split
"G"	—gift	"X"	—exercise of option
"IR"	—initial report	"Z"	—distribution

Notice

ARTHUR S. PATTILLO

HEADS SECURITIES COMMISSION

TORONTO - JUNE 24, 1974.

Premier William Davis to-day announced the appointment of Toronto Solicitor Arthur S. Pattillo, 63, as Chairman of the Ontario Securities Commission, effective 1st September, 1974.

He will succeed E.A. Royce, who has served as Chairman for the last five years.

The Premier paid tribute to Mr. Royce for his efforts in helping establish 'an enviable reputation' for the Ontario Securities Commission throughout Canada.

Born in Halifax, Nova Scotia, Mr. Pattillo is a graduate of Dalhousie University and was called to the Ontario Bar in 1933. He practised law in Halifax from 1933 to 1944 at which time he moved to Toronto. He joined his present firm of Blake, Cassels and Graydon in 1944.

Mr. Pattillo is a past chairman of the Canadian Tax Foundation and a former president of the Canadian Bar Association.

Notice

ONTARIO REGULATION 794/70 AS AMENDED

CONDITIONS OF REGISTRATION

RETENTION OF RECORDS

The following amendment became effective on 1st July, 1974:

SECTION 6 (5) OF THE REGULATIONS AS SET OUT IN APPENDIX 5, BUSINESS RECORDS AND PROCEDURES, SUB-PARAGRAPH 6 OF BOOKS OF ACCOUNT AND ORIGINAL RECORDS IS AMENDED BY DELETING SENTENCE READING -

"Such documents may be destroyed after the expiry date of two years from the time of the receipt of the order"

and it is replaced by:

"THE DOCUMENTS MUST BE MAINTAINED AS FOLLOWS:

1. UNEXECUTED ORDERS FOR A PERIOD OF TWO YEARS.
 2. EXECUTED ORDERS FOR A PERIOD OF FIVE YEARS AND THESE, FOR THE FIRST TWO YEARS, MUST BE RETAINED IN AN EASILY ACCESSIBLE LOCATION".
-

Prosecution

THE QUEEN v. ALBERT JOSEPH GOULD
FRANK W. SPARROW
HUGH H. SUTHERLAND, JR.
IAN W. GARRATT
DOUGLAS E. BANNERMAN

Roderick M. McLeod, for the Crown,
Professor Desmond Morton and Ronald Leiberman,
for the Accused Albert Gould
David Humphrey and Gerald Lapkin, for the
Accused Frank Sparrow,
Robert Goldin, for the Accused Hugh Sutherland Jr.,
Robert Carter, for the Accused Ian Garratt,
Douglas E. Bannerman representing himself.

At a Supreme Court jury trial before His Lordship, Mr. Justice Donald R. Morand, in Toronto, Ontario, ending May 17, 1974, the jury acquitted Douglas E. Bannerman, and found Messrs. GOULD, SPARROW, SUTHERLAND, JR., AND GARRATT guilty of conspiracy to defraud the public. The charges arose from the promotion and trading of Santack Mines Ltd. shares in the Toronto unlisted market during early 1971.

On June 11, 1974 Mr. Justice Morand passed sentence as follows:

Frank W. SPARROW	- 3 years in penitentiary plus \$15,000.00 fine or in default 8 months consecutive;
Hugh H. SUTHERLAND, JR.-	8 months in reformatory plus \$15,000.00 fine fine or in default 8 months consecutive;
Ian W. GARRATT	- 2 years probation plus \$15,000.00 fine or in default 8 months in reformatory.

On June 20, 1974, Mr. Justice Morand sentenced Albert GOULD to 6 years in penitentiary plus \$25,000.00 fine or in default 1 year consecutive.

BULLETIN

OF

ONTARIO SECURITIES COMMISSION

FOR

August, 1974

Issued Monthly by the
ONTARIO SECURITIES COMMISSION
555 YONGE STREET, TORONTO, ONTARIO M4Y 1Y7

EXPLANATORY NOTES

Information contained in this report has been summarized from reports filed with the Commission.

The name of the issuer is followed by a brief description of the class of security, the name of the person or company reporting and his or its relationship to the issuer. If a person has an indirect interest in the securities reported, e.g., through holding companies, affiliate companies, partnerships, trusts or other entities, this is shown. Symbols are used in the column "Transaction and Ownership Symbol" to indicate the nature of ownership i.e., direct or indirect. Similarly the character of transactions is indicated provided the transactions are other than a purchase or sale. (See guide to symbols below):

GUIDE TO SYMBOLS

RELATIONSHIP

(appearing after the name reported)

"B"	—Beneficial Owner (direct or indirect) of equity shares of a corporation carrying more than 10% of the voting rights attached to all equity shares of the corporation outstanding.
"D"	—Director of principal company.
"DI"	—Director of a company which is an insider of the principal company.
"K"	—Exercises control or direction (direct or indirect) of equity shares of a corporation carrying more than 10% of the voting rights attached to all equity shares of the corporation outstanding.
"S"	—Senior Officer of principal company.
"SI"	—Senior Officer of a company which is an insider of the principal company.

NATURE OF OWNERSHIP

No symbol	—Securities are beneficially owned directly.
Symbol # 1	—Securities are beneficially owned by the reporting person or company and held by a company partnership, trust or other entity.
Symbol # 2	—Reports filed by companies, persons, partnership, trusts, associations, etc., who are the beneficial owners and are not, under the definition of an insider, related to any director, senior officer or other beneficial owner of the securities of the issuer.

CHARACTER OF TRANSACTION

No symbol	—purchase or sale	"M"	—internal transfer
"A"	—bequest or inheritance	"Q"	—qualifying share
"C"	—compensation	"R"	—redeemed (called, Matured)
"E"	—exchange or conversion	"T"	—stock dividend
"F"	—exercise of rights, etc.	"V"	—stock split
"G"	—gift	"X"	—exercise of option
"IR"	—initial report	"Z"	—distribution

*Returned for reconciliation purposes.

Notice

AN APPRECIATION

The Chairman, who was appointed in 1969 for a period of five years, will complete his tour of duty on 31st August, 1974. On the eve of his retirement, he wishes to thank those numerous members of the financial and industrial community who, during his term of office, have given him such whole-hearted and, indeed, vital support.

He also wishes to say how much he has appreciated the unfailing assistance of the members of the Commission and the staff of the Commission throughout the past five years.

He has every confidence that under the leadership of Mr. A. S. Pattillo, Q.C., his distinguished successor, the "enviable reputation" of which Premier Davis spoke will be maintained.

Amendment to Regulations

ONTARIO REGULATION 600/74

REGULATION TO AMEND REGULATION 794 OF REVISED REGULATIONS OF ONTARIO, 1970 MADE UNDER THE SECURITIES ACT

1. Clauses f, g, and h of section 6a of Regulation 794 of Revised Regulations of Ontario, 1970, as remade by section 1 of Ontario Regulation 95/74, are revoked and the following substituted therefor:
 - (f) "non-resident controlled dealer" means a dealer in which the total number of votes attached to equity shares beneficially owned directly or indirectly by,
 - (i) non-residents and their associates and affiliates over which non-residents and their associates and affiliates exercise control or direction, exceeds 25 per cent of the total number of votes attaching to the issued and outstanding equity shares of the dealer, or
 - (ii) a non-resident and his associates and affiliates or over which a non-resident and his associates and affiliates exercise control or direction, exceeds 10 per cent of the total number of votes attaching to the issued and outstanding equity shares of the dealer;
 - (g) "non-resident controlled registrant" means a registrant in which the total number of votes attached to equity shares

beneficially owned directly or indirectly by,

- (i) non-residents and their associates and affiliates over which non-residents and their associates and affiliates exercise control or direction, exceeds 25 per cent of the total number of votes attaching to the issued and outstanding equity shares of the dealer, or
 - (ii) a non-resident and his associates or affiliates or over which a non-resident and his associates and affiliates exercise control or direction, exceeds 10 per cent of the total number of votes attaching to the issued and outstanding equity shares of the dealer;
- (h) "permissible capital" means the sum of,
- (i) either,
 - 1. the highest level of capital employed by a non-resident controlled dealer in any financial year ending on or before the 31st day of March, 1971, or,
 - 2. where, prior to the 14th day of July, 1971, the business of the non-resident controlled dealer in Canada was conducted by a dealer and its branches, controlled directly or indirectly by non-residents through a branch office in Ontario and where, under the requirements of Part II of the Act and section 6a of this Regulation, as made by section 1 of Ontario Regulation 296/71 the business was

subsequently transferred to the non-resident controlled dealer, a company incorporated under the laws of Canada or one of its provinces or territories, the capital that would have been required by sub-sections 1 and 2 of section 6 of this Regulation had section 6 been in force on or before the 31st day of March, 1971, calculated as if the business of the dealer and its branches transferred to the non-resident controlled dealer was conducted by a single company and approved by the Commission,

- (ii) any increase in capital obtained through the issuing of voting and fully participating common shares to residents for which notice has been filed with the Commission, and
- (iii) any increase or decrease in capital determined or permitted in accordance with sections 6e and 6f.

2. Section 6d of the said Regulation, as made by section 1o of Ontario Regulation 95/74, is revoked and the following substituted therefor:

- 6d (1) The registration and renewal of registration of a non-resident controlled dealer is conditional upon,
- (a) there being no material change in ownership without the consent or permission of the Commission under subsections 2 and 3;
 - (b) where the non-resident controlled registrant is a non-resident controlled dealer its capital not

exceeding its permissible capital; and

- (c) where the parent of a non-resident controlled registrant has paid a dividend to its shareholders in its last financial year, the non-resident controlled registrant paying to its shareholders within twelve months of the date on which the dividend of the parent company was paid the same percentage of its retained earnings, if any, that the dividends paid by its parent company were of the parent company's retained earnings.

(2) Except where,

- (a) the written consent of the Commission is obtained prior to the commencement of a distribution to the public; and
- (b) all terms and conditions of the Commission's written consent referred to in clause a are complied with,

an increase in the capital of a parent company of a non-resident controlled registrant through a distribution of its securities to the public shall be deemed to be a material change in the ownership of the non-resident controlled registrant.

(3) Upon the application of a non-resident controlled registrant, the Commission, where it is satisfied,

- (a) that the non-resident controlled registrant provides material or unique service to Ontario investors not substantially available

to those investors through other registrants; and

(b) the non-resident and his associates or affiliates have made reasonable efforts without success to obtain resident Canadian purchasers for the equity shares over which they exercise control or direction of the non-resident controlled registrant and that under the control or direction of the proposed non-resident, the non-resident controlled registrant would continue to provide the material or unique service to Ontario investors; or

(c) the continuation of the material or unique service to Ontario investors is dependent upon continued non-resident control or direction,

and that to do so would not otherwise be prejudicial to the public interest, may permit a material change in non-resident ownership, control or direction of the non-resident controlled registrant subject to such terms and conditions as it may impose.

(4) Upon an application of a non-resident controlled registrant, the Commission may exempt the non-resident controlled registrant from the obligation to comply with clause c of subsection 1, upon such terms and conditions as it may impose. where it is satisfied that to do so would not be prejudicial to the public interest.

3. Subsection 2 of section 6e of the said Regulation, as made by section I of Ontario Regulation 95/74, is revoked and the following substituted therefor:

- (2) The Commission shall calculate the domestic base capital for each financial year commencing with the financial year ending the 31st day of March, 1971, and shall compare the domestic base capital for each financial year with the domestic base capital of the previous financial year for the purpose of calculating the percentage increase or decrease in the domestic base capital.
4. Section 6g of the said Regulation, as made by section 1 of Ontario Regulation 95/74, is revoked.

BULLETIN
OF
ONTARIO SECURITIES COMMISSION
FOR
September, 1974

Issued Monthly by the
ONTARIO SECURITIES COMMISSION
555 YONGE STREET, TORONTO, ONTARIO M4Y 1Y7

EXPLANATORY NOTES

Information contained in this report has been summarized from reports filed with the Commission.

The name of the issuer is followed by a brief description of the class of security, the name of the person or company reporting and his or its relationship to the issuer. If a person has an indirect interest in the securities reported, e.g., through holding companies, affiliate companies, partnerships, trusts or other entities, this is shown. Symbols are used in the column "Transaction and Ownership Symbol" to indicate the nature of ownership i.e., direct or indirect. Similarly the character of transactions is indicated provided the transactions are other than a purchase or sale. (See guide to symbols below):

GUIDE TO SYMBOLS

RELATIONSHIP

(appearing after the name reported)

"B"	—Beneficial Owner (direct or indirect) of equity shares of a corporation carrying more than 10% of the voting rights attached to all equity shares of the corporation outstanding.
"D"	—Director of principal company.
"DI"	—Director of a company which is an insider of the principal company.
"K"	—Exercises control or direction (direct or indirect) of equity shares of a corporation carrying more than 10% of the voting rights attached to all equity shares of the corporation outstanding.
"S"	—Senior Officer of principal company.
"SI"	—Senior Officer of a company which is an insider of the principal company.

NATURE OF OWNERSHIP

No symbol	—Securities are beneficially owned directly.
Symbol # 1	—Securities are beneficially owned by the reporting person or company and held by a company partnership, trust or other entity.
Symbol # 2	—Reports filed by companies, persons, partnership, trusts, associations, etc., who are the beneficial owners and are not, under the definition of an insider, related to any director, senior officer or other beneficial owner of the securities of the issuer.

CHARACTER OF TRANSACTION

No symbol	—purchase or sale	"M"	—internal transfer
"A"	—bequest or inheritance	"Q"	—qualifying share
"C"	—compensation	"R"	—redeemed (called, Matured)
"E"	—exchange or conversion	"T"	—stock dividend
"F"	—exercise of rights, etc.	"V"	—stock split
"G"	—gift	"X"	—exercise of option
"IR"	—initial report	"Z"	—distribution

*Returned for reconciliation purposes.

Notice

MULTIPLE PROSPECTUSES

It has been agreed by the Provincial Securities Administrators that the practice of accepting multiple or combined prospectuses for filing will be discontinued.

EFFECTIVE 1ST JANUARY, 1975, each fund or issuer will be required to file a separate prospectus.

October, 1974

Issued Monthly by the

ONTARIO SECURITIES COMMISSION

555 YONGE STREET, TORONTO, ONTARIO M4Y 1Y7

EXPLANATORY NOTES

Information contained in this report has been summarized from reports filed with the Commission.

The name of the issuer is followed by a brief description of the class of security, the name of the person or company reporting and his or its relationship to the issuer. If a person has an indirect interest in the securities reported, e.g., through holding companies, affiliate companies, partnerships, trusts or other entities, this is shown. Symbols are used in the column "Transaction and Ownership Symbol" to indicate the nature of ownership i.e., direct or indirect. Similarly the character of transactions is indicated provided the transactions are other than a purchase or sale. (See guide to symbols below):

GUIDE TO SYMBOLS

RELATIONSHIP

(appearing after the name reported)

- "B" —Beneficial Owner (direct or indirect) of equity shares of a corporation carrying more than 10% of the voting rights attached to all equity shares of the corporation outstanding.
- "D" —Director of principal company.
- "DI" —Director of a company which is an insider of the principal company.
- "K" —Exercises control or direction (direct or indirect) of equity shares of a corporation carrying more than 10% of the voting rights attached to all equity shares of the corporation outstanding.
- "S" —Senior Officer of principal company.
- "SI" —Senior Officer of a company which is an insider of the principal company.

NATURE OF OWNERSHIP

- No symbol —Securities are beneficially owned directly.
- Symbol # 1 —Securities are beneficially owned by the reporting person or company and held by a company partnership, trust or other entity.
- Symbol # 2 —Reports filed by companies, persons, partnership, trusts, associations, etc., who are the beneficial owners and are not, under the definition of an insider, related to any director, senior officer or other beneficial owner of the securities of the issuer.

CHARACTER OF TRANSACTION

- | | | | |
|-----------|---------------------------|-----|-----------------------------|
| No symbol | —purchase or sale | "M" | —internal transfer |
| "A" | —bequest or inheritance | "Q" | —qualifying share |
| "C" | —compensation | "R" | —redeemed (called, Matured) |
| "E" | —exchange or conversion | "T" | —stock dividend |
| "F" | —exercise of rights, etc. | "V" | —stock split |
| "G" | —gift | "X" | —exercise of option |
| "IR" | —initial report | "Z" | —distribution |

*Returned for reconciliation purposes.

Notice

PRESS RELEASE

Premier William Davis has announced the appointment of Robert N. Steiner, 65, of Ancaster, former Chairman of The Toronto Stock Exchange, as a member of the Ontario Securities Commission for a period of two years. He replaces James Strathy, OBE, who retired after serving four years.

Mr. Steiner was a senior partner in A.E. Ames and Co. until four years ago when he retired after being with the Firm for 40 years. He opened the A.E. Ames office in Hamilton in 1936.

Mr. Steiner is a former president of the Art Gallery of Hamilton and of the Art Gallery of Ontario. He was also active for many years with the Hamilton Community Chest. He was born and educated in Toronto.

Mr. Davis also announced the reappointment to the Commission of Professor Stanley M. Beck, 40, of Toronto, for a term of two years.

Notice

STATUTORY DISCLOSURE: REPEAT DEFAULTERS

The Commission's attention has been directed to the fact that several reporting companies have failed on at least two separate occasions to file the information required to be furnished to its shareholders by either The Securities Act or The Business Corporations Act within the time limited by statute and have only done so after a notice of default has been issued to them by the Commission.

This repeated failure to furnish investors with the information to which they are entitled will result in future in the issuance of a temporary cease trading order, followed by the public hearing required by statute which may result in a permanent order until such time as the default is corrected. The practice of giving a notice of default prior to issuing the temporary cease trading orders will stop where the reporting issuer defaults a second time. The Director, who exercises the power to stop trading under Section 144 of the Act through assignment on behalf of the Commission, has been advised of its views and requested to implement this practice immediately.

The Commission have requested a report on the circumstances of the default in each case in order that it may consider whether or not to recommend or direct that court proceedings be implemented against those individuals responsible for the failure to comply.

Statement of Commission Policy

UPDATED NATIONAL POLICY NO. 2

GUIDE FOR ENGINEERS, GEOLOGISTS AND PROSPECTORS

SUBMITTING REPORTS TO CANADIAN PROVINCIAL
SECURITIES ADMINISTRATORS

GENERAL

Reports submitted must be engineering documents. They must be factual and the recommendations must be warranted in the light of the information and data presented in the report. The author must state that, in his judgment, the venture is of sufficient merit to make the work recommended a worthwhile undertaking.

Authors with professional affiliations will use their seal.

Reports will be accepted only for the purposes of a prospectus if prepared by an engineer, geologist or prospector who has gained a minimum of three years practical experience, unless the author holds exceptional qualifications and there are unusual circumstances.

Where the proceeds of the issue are being applied to the property being reported upon, the person making the report required to be filed with the administrator (Commission) must be free of any association with the issuing company. Therefore, except where specifically provided for in the Regulations, the report shall not be written by a director, officer or employee of the company or of an affiliate of the company or who is a partner, employer or employee or any such director, officer or employee or who is an associate of any director or officer of the company or of an affiliate of the company. The report shall not be submitted if the person making it or any partner or employer of

or associate to him beneficially owns, directly or indirectly, any securities of the company or of a subsidiary thereof or, if the company is a subsidiary, any securities of its holding company. This latter restriction does not apply to a person, partner, employer or associate, as the case may be, if the person, partner, employer or associate is not empowered to decide whether securities of the company or its holding company, as the case may be, are to be beneficially owned, directly or indirectly, by him, or if he is not entitled to vote in respect thereof.

SOURCE OF INFORMATION

If any of the information and data are not based on the author's own observations and investigations, their source should be clearly stated, giving exact reference to published reports and records. When such information is derived from unpublished or private reports or records, a photostatic or other authenticated copy of the original should be submitted, together with a letter of consent and a certificate of qualification re that author's professional qualification, except where the report is a matter of public record such as those on open file in a provincial or federal natural resources department.

Wherever reasonable and practicable, reports must be based upon the author's personal inspection of the property being reported upon.

CONTENT OF REPORTS

A complete report should include a description of the properties of the issuer in accordance with the requirements of the appropriate provincial legislation and regulations and should contain all pertinent exploration data including plans and sections. The report should be presented under the following headings as applicable:

A. Mineral Properties

Table of Contents

Summary

Preamble or Introduction including author's
terms of reference

Property, Description and Location

Accessibility, Climate, Local Resources

History - comprehensive, with reference to all
previous work for which records are
available

Geology

Mineral Deposits (Oil and Gas Accumulations)
and their state of Development

The report must clearly distinguish
between mineral showings which occur
on the company's property being reported
upon and those elsewhere in the area.

Reserves and Production

Conclusions and Recommendations with Cost
Estimates

In Intermediate (Development) and Senior
Financing (Production) Reports, the
following vital considerations must be ex-
plored:

Recoverability and amenability of the
raw material

Tonnage and grade versus optimum pro-
fitability

Markets

Smelter Contracts, tolls and transporta-
tion

Taxes

Cash flow, capital and operating cost
estimates

Payback of capital with interest

The description of the properties must include claim
numbers, whether patented or unpatented and if
contiguous. The percentage of interest held in
the properties should be stated.

If the potential merit of a property is
predicated entirely or in part on results obtained
on neighbouring ground, the known history of the

latter should also be covered.

A description of mineralization encountered on the property should be given detailing the strike length, width, continuity and the basis of such measurements together with a description of the type, character and distribution of the mineralization. References as to its grade should be substantiated by assays with the data thereof, and by assay plans and sections. In addition to giving the widths of the individual samples it should be stated whether these are the author's own samples or those of other parties. The method of sampling should be described making it clear whether assay results are based on channel samples, chip samples, grab samples, character samples or core samples.

Values in precious metals should be expressed in ounces per ton or grams per metric ton and the content of other metals, etc., in percentages or pounds per ton, but not in dollars or other currency.

Care should be taken in the use of the word "ore". The term is defined in the most recent Ontario Regulations as follows:

- (a) "Ore" means a natural aggregate of one or more minerals which, at a specified time and place, may be mined and sold at a profit, or from which some part may be profitably separated;
- (b) "Proven Ore" or "measured ore" means that material for which tonnage is computed from dimensions revealed in outcrops or trenches or underground workings or drill holes and for which the grade is computed from the results of adequate sampling, and for which the sites for inspection, sampling and measurement are so spaced and the geological character so well defined that the size, shape and mineral content are established, and for which the

computed tonnage and grade are judged to be accurate within limits which shall be stated and for which it shall be stated whether the tonnage and grade of proven ore or measured ore are in situ or extractable, with dilution factors shown, and reasons for the use of these dilution factors clearly explained;

- (c) "Probable ore" or "indicated ore" means that material for which tonnage and grade are computed partly from specific measurements, samples or production data, and partly from projection for a reasonable distance on geological evidence, and for which the sites available for inspection, measurement and sampling are too widely or otherwise inappropriately spaced to outline the material completely or to establish its grade throughout;
- (d) "Possible ore" or "inferred ore" means that material for which quantitative estimates are based largely on broad knowledge of the geological character of the deposit and for which there are few, if any, samples or measurements, and for which the estimates are based on an assumed continuity or repetition for which there are reasonable geological indications, which indications may include comparison with deposits of similar type, and bodies that are completely concealed may be included if there is specific evidence of their presence.

Estimates of "possible ore" or "inferred ore" shall include a statement of conditions within which the inferred material occurs; and

The arithmetical average of any amounts of sampling is not necessarily representative, unless the distribution of values and number

of samples are properly taken into account, and a statement of how samples were taken shall be given, and where mineralization is erratic, the method of treating the erratic values shall be given in the narrative of the report; and

Where the word "ore" may not properly be used, both terms as "mineralization", "mineralized bodies" or "concentrations", etc. should be used.

The information supplied in the report should be sufficient and positive enough to warrant the recommendations made. An estimate of costs for the proposed programme should be included.

B. Oil and Gas

For oil and gas companies, in addition to the headings under A, Mineral Properties, which are applicable, furnish the following information as to important oil and gas properties, plants, facilities and installations and other important properties presently owned, leased or held under option, or presently intended to be owned, leased or held under option by the issuer or its subsidiaries:

- (1) The location, by fields if possible, of all producing wells and all non-unitized wells capable of producing in which the issuer or its subsidiaries have an interest, indicating the total number of wells in each such field or other area, the interest of the issuer and its subsidiaries therein expressed in terms of net wells, distinguishing separately oil wells and gas wells;
- (2) With respect to interests in properties on which no producing wells have been drilled, the gross acreage in which the issuer or its subsidiaries have an interest and the interest of the issuer and its subsidiaries

therein expressed in terms of net leaseable acreage, and the location of such acreage by geographical area;

- (3) If exploration or development work is contemplated so state and give the general nature and the proposed extent thereof;
- (4) To the extent that such properties are not unitized and are capable of but are not producing, indicate the proximity of such properties to pipe lines or other means of transportation;
- (5) A description of the physical characteristics of the basin including porosity, the depth of payzone, p.s.i. (pressure), temperature and rate of recoverability.
- (6) The quantity and type of the estimate proven developed reserves, proven undeveloped reserves and probable additional reserves of crude oil, natural gas and natural gas liquids of the issuer and its subsidiaries;
- (7) The net crude oil, natural gas liquids and natural gas production of the issuer and its subsidiaries, including the interest of the issuer and its subsidiaries in the crude oil, natural gas liquids and natural gas production of any other person or company, for each of the last five completed financial years preceding the date of the preliminary prospectus or the date of the prospectus filed under the relevant legislation, and for the current year as at a date not more than four months prior to the date of the receipt for the said preliminary prospectus or date of prospectus, as the case may be;
- (8) The number of wells the issuer or its subsidiaries have drilled or have participated in the drilling of for each of the last five completed financial years preceding the date of the preliminary prospectus or date of the prospectus filed under the relevant legislation,

and for the current year as at a date not more than four months prior to the date of said preliminary prospectus or prospectus, as the case may be, the number of such wells completed as producing wells and as dry holes, and the amount expended by the issuer and its subsidiaries during the said five completed financial years and the said portion of the current year on drilling and exploration activities;

- (9) Appraisals of crude oil, natural gas, natural gas liquids and sulphur reserves shall tabulate the values of the issuer's net interests and also their present worth at a realistic discount rate which must be stated.

Care should be taken in the use of the terms "crude oil", "natural gas", "natural gas liquids", "commercial production", "proved reserves", "proved developed reserves", "proved undeveloped reserves" and "probable additional reserves". These terms are defined in the Ontario Regulations as follows:

"Crude Oil" is a mixture that consists mainly of pentanes and heavier hydrocarbons which may contain sulphur compounds, and that is recoverable at a well from an underground reservoir, and that is liquid at the conditions under which its volume is measured or estimated, and includes all other liquid hydrocarbons so recoverable except natural gas liquids.

"Natural Gas" is a mixture, consisting principally of hydrocarbons that may contain non-hydrocarbon gases such as carbon dioxide, hydrogen sulphide or nitrogen, which mixture is recoverable from an underground reservoir and that is in the gaseous phase or in solution with crude oil in the reservoir.

"Natural gas Liquids" are the hydrocarbon components propane, butanes, and pentanes plus, or a combination of them, which hydrocarbon components are subject to recovery from raw gas as liquids by the processes of condensation

or absorption, which takes place in field separators, scrubbers, gas processing and re-processing plants, or cycling plants.

"Commercial Production" is output from a well of such quantity of petroleum substances as having regard to the cost of drilling and production and the price, kind and quality of such production, would justify from a commercial and economic point of view the drilling of a similar well in the immediate surroundings.

"Proved Reserves" underlying a property are the estimated economically recoverable quantities of crude oil, natural gas, and natural gas liquids, including the reserves to be obtained by enhanced recovery processes demonstrated to be successful, from that portion of an area delineated by gas-oil or oil-water or gas-water contacts in wells drilled or which can be reasonably evaluated as economically productive, on the basis of drilling, geological, geophysical and engineering data, but reserves in undrilled prospects cannot be classed as "proved".

"Proved Developed Reserves" are those proved reserves which will be produced from existing wells or facilities.

"Proved Undeveloped Reserves" are those proved reserves which are not recoverable from existing wells or facilities or from those zones in existing wells which have been cased-off, but which can be recovered through the drilling of additional wells.

"Probable Additional Reserves" of crude oil, natural gas and natural gas liquids is an estimate of reserves not included in an estimate of the proven reserves which may be recovered from the known reservoir or from that portion underlying the properties. The estimates of probable additional reserves are as realistic as can be determined on the basis of the information available. The reserve considered probable

additional shall be the estimated ultimate recoverable content of the reservoir less the proven reserve, or of that portion underlying the properties, and shall be based on a realistic interpretation of the geological, geophysical and well test data available at the time the estimate is made. Probable additional reserves to be obtained by the application of enhanced recovery processes will be the increased recovery over and above that recognized in the proved category which can be realistically estimated to be ultimately economically recovered from the pool or such portions as underlies the properties.

Where a large portion of a company's assets are lands not having proven or probable additional reserves and in cases where the security for loans, debentures, etc. is based all or in part on such holdings, an appraisal of these lands shall be included in the report.

MAPS

Reports must be well illustrated by plans and by sections to give an adequate picture of the property. All reports must be accompanied by a location or index map and a more detailed plan showing all important features described in the text. If nearby properties have an important bearing on the possibilities of the ground under consideration, their location should be shown on the maps. Where the mineralized or ore-bearing structures are expected to pass from one property to the other, this implication should be indicated clearly on the map.

In case the potential merit of a property is predicated on geophysical or geochemical results, maps showing result of the surveys and the interpretations should be submitted.

All maps should show a scale, a North arrow, and should be signed and dated. If geological features or other data have been taken from Government maps or from drawings of other engineers

or geologists, this should be properly acknowledged.

CONSENT TO USE OF NAME IN PROSPECTUS

Where the author of the report or valuation is named as having prepared or certified any part of a prospectus or is named as having prepared or certified a report or valuation used in connection with a prospectus, the written consent of such author to the inclusion of such report or valuation shall accompany the report or valuation when filed with the Commission. It is the responsibility of the author when giving such a consent to have assured himself that it can properly be given.

CERTIFICATE OF THE AUTHOR

All reports must be submitted in duplicate with the author's certificate attached, both dated and signed. The certificate shall state:

- (a) the name, address and occupation of the author;
- (b) the qualification of such person;
- (c) whether or not the report is based on personal examination;
- (d) the date of any such examination;
- (e) if the report is not based on personal examination, the source of the information contained in the report; and
- (f) whether he has, directly or indirectly, received or expects to receive any interest, direct or indirect, in the property of the company or any affiliate, or beneficially owns, directly or indirectly, any securities of the company or any affiliate and if so give particulars.

Statement of Commission Policy

NEW ONTARIO SECURITIES COMMISSION POLICY 3-28

APPLICATIONS FOR COMMISSION CONSENT TO OBTAIN TRANSCRIPTS OF EVIDENCE TAKEN DURING INVESTIGATIONS OR HEARINGS

Apart from the statutory requirement of Section 24 of The Securities Act prohibiting the release of any evidence taken during the course of an investigation or hearing the Commission has instructed reporters recording evidence given during an investigation or a hearing before the Director or the Commission that, apart from transcripts ordered by the parties conducting the investigation or hearing, their notes or other records should only be transcribed and sold to other parties with the specific consent and under the supervision of the Commission. This policy statement is aimed at clarifying the procedure to be followed in making application for the consent and obtaining transcripts and the general circumstances under which a consent may be anticipated.

As to hearings, the Commission will consent to an Applicant obtaining the transcript of the evidence, given at any public hearing. In addition, where any part of a hearing is held 'in camera' in accordance with Section 9 of The Statutory Powers Procedure Act or where a witness has claimed the protection of the Canada or Ontario Evidence Acts, the Commission will not consent to a third party obtaining a copy of that evidence without the specific written consent of the witness concerned. Where the Applicant may be unaware of the identity of a witness in an 'in camera' hearing the Commission will attempt to contact the witness, advise the witness of the application and request the consent.

As to evidence given in the course of an

investigation, the Commission will normally consent to a witness obtaining a copy of his own evidence pursuant to the provisions of Section 24 of the Act. Apart from this the Commission does not view it as being in the public interest, and the conduct of effective investigations, to consent to the release of information or evidence obtained through an investigation order issued under Section 21 or Section 23 of the Act.

Procedure

- (1) Application for consent to purchase a transcript of the evidence or a specific part of the evidence from the Reporter (at the Applicant's expense) should be made in writing and addressed to the Secretary to the Commission. The interest of the Applicant in the evidence and the reason for requesting it should be given.
- (2) The Secretary will forthwith obtain a staff opinion and recommendation and place the application and opinion before the Commission. If it appears that consent may be refused the Applicant will be invited to make further submissions and afforded an opportunity to be heard by the Commission before a decision is made.
- (3) The Secretary will advise the applicant of the Commission's decision and, where consent to the Applicant's obtaining a transcript is given, will advise the Reporter as to the terms of the consent and the name of the Applicant, instructing that the transcript together with an invoice for the transcript, addressed to the Applicant, be furnished to the Secretary when the transcript is completed.
- (4) Upon receipt of the transcript and invoice the Secretary will advise the Applicant who may obtain the transcript from the Secretary upon receipt by the Secretary of a cheque or money order in the amount of the invoice

made payable to the Reporter (not the Treasurer of Ontario).

- (5) The Secretary will close the Commission's file by forwarding the cheque or money order to the Reporter, noting the details of the action taken on the Commission file.

Decisions, Orders and Rulings

IN THE MATTER OF THE SECURITIES ACT

AND

IN THE MATTER OF TRI-BRIDGE CONSOLIDATED
GOLD MINES LIMITED

Hearing held: September 4, 1974

Present:	A.S. Pattillo, Q.C.,	- Chairman
	G.R. Guillet	- Commissioner
	T.A.M. Hutchison	- Commissioner
	T.R. Hawkins	- for Tri-Bridge Consolidated Gold Mines Limited
	M. Bader	- for the Commission

A hearing under the provisions of Section 144(1) of The Ontario Securities Act was held pursuant to notice on September 4, 1974.

The question to be determined was whether or not there should be an extension of the order stopping trading in the securities of the company because the prospectus of the company dated December 14, 1973, was false and misleading in that the report of the Geologist, Wilfred Walker, failed to disclose certain information on file in the Department of Mines in Nova Scotia relating to work done on the property of the company in Nova Scotia in the 1930's and early 1940's, and failed to disclose that money proposed by the prospectus to be expended on the property would probably be unproductive.

At the hearing, evidence was given by Mr. James D. McCannell, a Geologist located in Toronto, by the said Wilfred Walker, the Geologist who prepared the report for the prospectus, by Mr. Schiralli, a Solicitor in the firm of Salter & Apple, Barristers of Toronto, and Mr. Keefer, the Mining Consultant and Adviser to the Commission.

The evidence disclosed that in the spring of 1973, Messrs. Hogan and Morgan, through a company, Inshore Goldfields Ltd., held sixteen unpatented mining claims situate in the Salmon River Gold District, Halifax County, in the Province of Nova Scotia. In April, 1973, Mr. Hogan and Mr. Walker proceeded to Nova Scotia for the purpose, amongst other things, of going on the property covered by the said claims. In the afternoon of April 16th, they called upon Mr. Frank Shea, the Director of the Department of Mines, in his office in Halifax. They had a conversation with Mr. Shea which lasted about one hour and when they left, they took with them a copy of Sheet No. 40 of a Geological Survey of Canada map, based on a survey made by the late E.A. Faribault of the area encompassing the site of the said unpatented claims.

Mr. Walker admitted that he made no search of the records in the Mines Office in Halifax and did not question Mr. Shea or anyone else in that office as to what operations, if any, had been carried on on the unpatented claims since the termination of the Dufferin Mine operations about 1911.

On the next day, Messrs. Hogan and Walker hired a car and drove to the site of the claims. Underbrush had grown up but Mr. Walker found rock piles and from these took samples which he brought back to Toronto, and which he subsequently had assayed. He said the purpose of this was to determine whether there was evidence of gold in the rock wall which had been removed at the time of the old operations. The visit to the property lasted about one hour.

On Mr. Walker's return to Toronto, he and Mr. Hogan called upon Mr. Schiralli who was acting

for M. Rash & Co. Limited. After some negotiations, it was arranged that the claims should be sold to M. Rash & Co. Limited and ultimately should become the property of the company, Tri-Bridge Consolidated Gold Mines Limited. In support and as part of the prospectus, Mr. Walker filed a report. He referred to the material which he had read, all of which had been issued prior to the first war, and to the fact that he had been upon the property. He did not refer to the later operations in the 1930's and 1940's because he had no knowledge of them.

Subsequent to the issue of the prospectus, Tri-Bridge Consolidated Gold Mines Limited retained the services of Barringer Research to perform geochemical and geophysical surveys on the ground. Barringer performed this work and submitted a report dated June, 1974.

As a consequence of this report, the company approached Mr. James D. McCannell, a Consulting Geologist of Toronto, and retained him to arrange a diamond drilling program on the property. Mr. McCannell, in turn, on July 25th, retained Mr. John A. Leslie, a Geologist residing in Halifax, to supervise the diamond drilling program and to check the Department of Mines' file at Halifax for any underground information from the former work described in the Walker Report.

Mr. McCannell told us that this information was essential before proceeding with the diamond drilling anywhere near the old workings. In due course, Mr. Leslie phoned and reported that he had discovered from his search at the Mines Office that Consolidated Mining and Smelting Company of Canada Limited had carried out extensive exploration work on the property in the middle 1930's and the early 1940's. This work had resulted in the drilling of a shaft, substantial drifting, and other work costing in all, at that time, approximately \$250,000. Mr. McCannell immediately communicated with the Toronto office of Consolidated Mining and Smelting and, subsequently, examined the information in their files.

On August 19th, he reported that as a consequence of the work done in the 1930's and 1940's of which Mr. Walker had had no knowledge, it was his recommendation that Tri-Bridge Consolidated Gold Mines Limited should not proceed with the exploration program recommended by Mr. Walker but should give consideration to acquiring another property.

On August 21, 1974, the Board of Directors met, advised the Commission of the information obtained from Mr. McCannell, and sent a letter to the shareholders reporting on this information. The shareholders were advised that on the Nova Scotia property, expenditures of \$12,000 had been incurred, but that the company had a current working capital position in excess of \$60,000. The report went on to say, "Your Directors are presently assessing the position of the company both with respect to the acquisition of future properties and to determine what action should be taken in light of the foregoing events".

Counsel for the company took the position that the stop trading order should terminate and that trading should be resumed in the securities because the Board of Directors had made prompt disclosure as soon as they had obtained the information from Mr. McCannell.

After considering the foregoing facts, the Commission has decided that the order to cease trading should be extended until such time as the company has acquired other properties or made some decision as to its future. It was originally formed for the purpose of developing these Nova Scotia claims. We think it would be wrong to permit trading when the purpose of the company has failed. In saying this and reaching this conclusion, we are not in any way criticizing the management of the company which acted, in our opinion, properly and promptly.

On the other hand, we do think that we should call attention to the action of Mr. Walker. We feel that his failure to make a search of the records

at the Mines Office in Halifax, and to rely solely on a casual conversation with the Chief Geologist of the Department of Mines, plus only an examination of the material written more than sixty years ago, was carelessness bordering on gross negligence. In the course of his evidence, Mr. Walker admitted that he could have written his report just as well as if he had never gone on the property, but had stayed home in bed. The proposed investor is entitled to better treatment than this.

DATED at Toronto this 19th day of September, A.D. 1974.

BULLETIN

OF

ONTARIO SECURITIES COMMISSION

FOR

November, 1974

Issued Monthly by the
ONTARIO SECURITIES COMMISSION
555 YONGE STREET, TORONTO, ONTARIO M4Y 1Y7

EXPLANATORY NOTES

Information contained in this report has been summarized from reports filed with the Commission.

The name of the issuer is followed by a brief description of the class of security, the name of the person or company reporting and his or its relationship to the issuer. If a person has an indirect interest in the securities reported, e.g., through holding companies, affiliate companies, partnerships, trusts or other entities, this is shown. Symbols are used in the column "Transaction and Ownership Symbol" to indicate the nature of ownership i.e., direct or indirect. Similarly the character of transactions is indicated provided the transactions are other than a purchase or sale. (See guide to symbols below):

GUIDE TO SYMBOLS

RELATIONSHIP

(appearing after the name reported)

- | | |
|------|--|
| "B" | —Beneficial Owner (direct or indirect) of equity shares of a corporation carrying more than 10% of the voting rights attached to all equity shares of the corporation outstanding. |
| "D" | —Director of principal company. |
| "DI" | —Director of a company which is an insider of the principal company. |
| "K" | —Exercises control or direction (direct or indirect) of equity shares of a corporation carrying more than 10% of the voting rights attached to all equity shares of the corporation outstanding. |
| "S" | —Senior Officer of principal company. |
| "SI" | —Senior Officer of a company which is an insider of the principal company. |

NATURE OF OWNERSHIP

- | | |
|------------|--|
| No symbol | —Securities are beneficially owned directly. |
| Symbol # 1 | —Securities are beneficially owned by the reporting person or company and held by a company partnership, trust or other entity. |
| Symbol # 2 | —Reports filed by companies, persons, partnership, trusts, associations, etc., who are the beneficial owners and are not, under the definition of an insider, related to any director, senior officer or other beneficial owner of the securities of the issuer. |

CHARACTER OF TRANSACTION

- | | | | |
|-----------|---------------------------|-----|-----------------------------|
| No symbol | —purchase or sale | "M" | —internal transfer |
| "A" | —bequest or inheritance | "Q" | —qualifying share |
| "C" | —compensation | "R" | —redeemed (called, Matured) |
| "E" | —exchange or conversion | "T" | —stock dividend |
| "F" | —exercise of rights, etc. | "V" | —stock split |
| "G" | —gift | "X" | —exercise of option |
| "IR" | —initial report | "Z" | —distribution |

*Returned for reconciliation purposes.

Decisions, Orders and Rulings

IN THE MATTER OF THE SECURITIES ACT

AND

IN THE MATTER OF PROPOSED AMENDMENTS
TO PART XV OF THE BY-LAWS OF THE
TORONTO STOCK EXCHANGE

Hearings: October 30th and 31st, 1974

Commission:	A.S. Pattillo, Q.C.,	Chairman
	H.S. Bray, Q.C.,	Vice-
		Chairman
	Professor S.M.D. Beck	Commissioner
	G.R. Guillet	Commissioner
	R.N. Steiner	Commissioner
Counsel:	J.R. Kimber, Q.C.)	The Toronto
	J.D.A. Jackson)	Stock Exchange
	D.C. Ross)	Ontario
	S.S. Gorecki)	Securities
	H.W. Cohen)	Commission

Hearings were held on the 30th and 31st October, 1974, pursuant to s. 140(2)(b) of The Securities Act, R.S.O. 1970, c. 426 to determine whether a proposed change by The Toronto Stock Exchange (T.S.E.) in its commission rate structure was in the public interest. On May 25, 1967, shortly after the present Securities Act came into force, the Ontario Securities Commission (O.S.C.) ruled that any change in the T.S.E.'s rate structure and charges for its services were matters of public interest that required a public hearing and review by the Commission before they could be put into effect. Accordingly, the T.S.E. has made three

applications to the Commission since that date with respect to its rate structure.

The most recent application, other than the one that formed the basis of this hearing, was made on July 24, 1974, and followed by slightly less than one year the decision of the O.S.C. of August 9, 1973, granting approval to a rate structure which would provide an estimated overall increase in commission income of not more than 5.24%. As part of that decision, a schedule of tapered rates beginning on orders of over \$20,000 in value and progressing up to orders of \$500,000 was introduced. The rate on that part of the order exceeding \$500,000 was to be negotiable. In addition, it was ordered that the minimum rate be maintained at \$10. The Commission made it clear that its decision of August 9, 1973, was an interim decision only and that the T.S.E., in cooperation with the O.S.C., should undertake a sophisticated cost study so that both might be more accurately informed as to the costs of operation of the T.S.E.'s member firms for internal purposes and for purposes of being able to judge what rate schedule would support a viable securities industry and at the same time serve the public interest. We are pleased to note that this joint study is presently well underway and that our target date of March 31, 1976, seems likely to be met.

At the time of the August, 1973 decision, neither the O.S.C. nor the T.S.E. forecast what has occurred since that date or the effects upon all stock markets. The T.S.E. has been caught in the double-bind that is the unique feature of the current economy - inflation has forced operating costs sharply higher while both the volume and value of transactions has moved much lower, thus causing a severe financial crisis within the securities industry. A result of this crisis was the application filed by the T.S.E. on July 24, 1974, in which the T.S.E. asked for a temporary surcharge on all orders in excess of \$20,000 building up to a figure of 17.5% on orders of more than \$39,720. Hearings on this proposal were adjourned sine die on August 7, 1974, when the O.S.C.

asked for more detailed information on the industry's costs and revenues. Since the date of that adjournment, there has been a further marked deterioration in the stock market with severe consequences for the members of the T.S.E. In the result the T.S.E. asked, as an urgent matter, that the O.S.C. consider a request for an immediate flat, interim 10% surcharge on orders of more than \$5,000. The O.S.C. recognized the urgency and ordered that public hearings be held on October 30, 1974.

The T.S.E. presented a graphic and disturbing picture of the effects of the severe decline in both the volume and value of transactions on the Exchange. Some of these effects are:

1. The present membership of the T.S.E. stands at 83 which is the lowest for at least 25 years. This figure reflects the fact that in the last 5 years, 29 firms have disappeared either by going out of business entirely or merging with other member firms. In the last 6 months alone, 9 firms have left or are in the process of leaving the industry by way of takeover, merger or withdrawal.
2. In the first quarter of the fiscal year commencing April 1, 1974, only 30 of 91 member firms made a profit. In the second quarter, only 22 of the remaining 89 firms did so. Exhibits filed by the T.S.E. show the total loss of the members for the first quarter to be almost \$15 1/2 million. The loss at the end of the second quarter had been reduced to just over \$5 million, but this improvement, if it may be so characterized, was more a result of a turnaround in the bond market and an increase in the underwriting business than an increase in the volume of exchange trading which continued at a fairly stable but very low level. This was

reflected in the fact that those firms engaged in a widely diversified business reduced their loss positions in the second quarter, but those firms engaged in a primarily agency business did not improve their basic position.

3. In the first half of 1974, T.S.E. members suffered an operating loss of some \$20 1/2 million and saw capital withdrawals of just over \$8 million. In the same period, \$5 1/2 million of new capital was injected into the industry primarily so that member firms could continue to satisfy T.S.E. requirements with respect to minimum net free capital. The result has been a reduction in capital in a 6 month period of almost \$23 1/2 million.
4. In the first half of the fiscal year 1974 total personnel employed by T.S.E. members decreased by 1,258 or some 11%.

While costs in the first six months of the fiscal year rose some 12.7% falling stock prices and declining volume - which are also both a partial effect of inflation - have severely affected the revenue of member firms. As the average price per share drops, so does the trading commission. Thus, for an order of a board lot of 100 shares of an average priced stock, the reduction in income in the first half of fiscal 1974 has been approximately 28%. Compounding the decline in the average price of a share traded on the T.S.E. has been a sharp decline in trading volume. From April 1, to October 25, 1974, the average daily value of trading on the T.S.E. was \$14,433,073, compared with an average of \$26,256,526 for the previous 12 months. The gross commission earned on a daily trading average of \$14.5 million is about \$350,000 or some 46% less than the gross daily commission of \$645,000 on the daily trading average for 1973.

The continued decline in stock prices and volume of trading between July and October of this year convinced the T.S.E. that it had to broaden its proposal from that of July in which the proposed surcharge was only to be imposed on orders over \$20,000. A rate increase that would provide broader relief to the member firms was thought to be necessary. Thus, the new proposal is for a surcharge of 10% to be applied to orders of \$5,000 and over. It was emphasized that by applying the surcharge only on orders of \$5,000 and over that some 83% of all orders would be excluded. Thus, it was argued that the surcharge would have a neutral impact on the small investor.

The evidence was that a 10% surcharge should produce a 7% increase in commission revenues. A 7% increase will produce, at to-day's trading volumes, approximately \$25,000 per day. The T.S.E.'s evidence indicated that this was still far short of what its member firms required to break even. At to-day's volumes, a 32% surcharge would be necessary to produce such a result. In gross terms, the 10% surcharge in the second quarter of fiscal 1974 would have reduced the \$5 million operating loss by approximately \$1.5 million. It is obviously the hope of the T.S.E. that as the economy begins to move forward, both prices and volume of trading will also improve, and that notwithstanding inflation, the industry will once again find itself in a profitable position. For this reason, the T.S.E. does not request that the surcharge be implemented as a permanent increase, but rather as an interim measure.

The evidence outlined above was presented by the T.S.E. at the first day's hearings on October 30th, and was further supplemented by in-camera hearings on October 31st. The second day's hearings were in-camera to receive evidence by representatives of individual firms which disclosed their financial condition in some detail. It is sufficient to say that this evidence further demonstrated that notwithstanding personnel and salary cuts, and other measures of economy, the rapid rate of inflation coupled with the sharp price and volume decline had severely affected the range of

firms from the very large, diversified firm, to the small agency firm that make up the T.S.E. membership.

In commenting on the proposed rate increase, O.S.C. counsel submitted that the T.S.E. must demonstrate:

1. There is a valid need for increasing rates charged to consumers;
2. The rate increase will be borne by the appropriate segment of the investing public;
3. The rate increase will not harm the liquidity of the market;
4. The rate increase is reasonable and is not a protective blanket for the inefficient and ineffective members of the T.S.E.;
5. The competitive position of the T.S.E. will not be adversely affected vis-a-vis foreign exchanges.

We are satisfied that the T.S.E. has satisfactorily met, insofar as it is capable of doing so, the tests set down by our counsel. There can be little doubt of the valid need for a temporary increase in rates charged to T.S.E. customers. For some of the firms, in simple terms, it is a matter of survival. We are satisfied that the small investor will be little, if at all, affected by the proposed change. The large investor, including the institutional investor, will bear the lion's share of the increase. Whether the rate increase will harm the liquidity of the market, or whether it will be a cover for the inefficient and ineffective members of the T.S.E., one can only speculate. We do not think it is reasonable to suppose that an increase of this magnitude will have a significant effect on the liquidity of the market. As to being a life-saver for the inefficient members of the T.S.E. it is doubtful that a 10% surcharge will provide economic well-being to those members who are truly

inefficient - if, indeed, they have not long since been driven out of business. The competitive position of the T.S.E. vis-a-vis foreign exchanges is a matter best judged by the T.S.E. If the member firms are placing themselves in a non-competitive position, we can only assume that they will be quick to correct such a situation in their own best interests.

In conclusion, we are satisfied that the case has been made for an interim 10% increase on orders of \$5,000 and above. This increase is to come into effect no later than January 1, 1975, and shall terminate no later than July 31, 1975. It should be noted that the termination date is some three months after the exchanges in the United States are expected to go to a wholly negotiated rate structure. Given the fact that over 30% of the T.S.E. business is in interlisted securities, it is possible that a totally negotiated rate structure in the United States can have a significant impact on the T.S.E. A three month period should give enough time for the situation to sort itself out in the United States and for the T.S.E. to begin to analyze what effect the competitive rate structure has on its own members. It may be that a totally negotiated system will be also the answer in the Canadian marketplace. However, that, for the moment, is for the T.S.E. to judge, and we only wish to observe that with this very important change taking place in the American marketplace, both the O.S.C. and the T.S.E. must monitor its results very carefully. We also note that the cost study that was initiated at the instance of the O.S.C. in 1973 is proceeding with the utmost cooperation between the O.S.C. and the T.S.E. and we look forward to being informed of its results in March of 1976, or prior thereto, and of having for the first time, a complete and rational set of cost figures on which to base our future decisions.

DATED at Toronto this 7th day of November, A.D. 1974.

By the Commission

IN THE MATTER OF VIEWPOINT EXPLORATIONS LIMITED
AND IN THE MATTER OF SECTION 62(1) OF THE SECURITIES ACT, R.S.O., 1970, CHAPTER 426, AND AMENDMENTS
THERE TO

Hearing held: October 10, 1974

Present: H.S. Bray, Q.C., Vice-Chairman
Professor S.M.D. Beck, Commissioner,
G.R. Guillet, Commissioner

A.J. Lenczner and H. Cravit,
Counsel for the Company

L. Gord, Staff Counsel

The evidence upon which this decision is based was taken at a hearing convened in accordance with Section 144 to consider whether a temporary order made on September 25th, 1974 that all trading in the securities of Viewpoint Explorations Limited should cease, should be made permanent, rescinded or permitted to lapse. The decision as to the ban on trading was that the facts concerning the circumstance under which the sale of 500,000 shares of Viewpoint Explorations Limited by Herbert & Co. Securities Ltd. on August 20th, 1974 for the account of E.D. Sassoon Bank & Trust International Ltd. of Nassau had been sufficiently disclosed and therefore, the order might be permitted to lapse.

The evidence of Herbert West, President and a principal shareholder of Herbert & Co. Securities Ltd., a broker-dealer which marketed the stock, did nothing to dissipate our concern that the Viewpoint prospectus dated July 22nd, 1974 for which a receipt was issued on August 20th, 1974 did not accurately reflect the proposed method of distribution of the treasury shares

qualified for sale through this prospectus. The prospectus discloses an offering by the Company of up to 500,000 common shares by Herbert & Co. Securities Ltd. on a best efforts basis. The sale was to net the treasury of the Company not less than 20¢ per share. In addition, the prospectus contemplates a secondary offering of 112,594 shares by Herbert & Co. Securities Ltd. on behalf of Tully Investments Limited. Tully Investments Limited is described as the promoter of the Company. Mr. West is the President of Tully Investments Limited as well as being the President of Herbert & Co. Securities Ltd.

The remarkable coincidence of E. D. Sassoon Bank & Trust International Ltd. of Nassau placing an order for the whole of the treasury offering between the time the preliminary prospectus was filed and the receipt for the final prospectus issued, in the absence of evidence to the contrary gives rise to a clear inference that under the terms of our Act, D. E. Sassoon Bank & Trust International Ltd. of Nassau was acting as an underwriter, that is, was purchasing the shares for the purpose of resale. Mr. West's evidence did nothing to allay these suspicions. He purported to have no idea as to the circumstances which lead to E. D. Sassoon Bank & Trust International Ltd. of Nassau placing the order, notwithstanding his responsibility to enquire under the "Know Your Client" rule. The order came as a complete surprise to him and much to his delight. This reaction is not too surprising if his evidence is to be believed since as a result of this apparently unsolicited order, he sold the whole issue with one trade, making a commission of \$20,000.00, without the necessity of any selling effort.

Mr. West testified that he had had a conversation in June with a man in Amsterdam prior to the filing of the preliminary prospectus and inferred that the E. D. Sassoon Bank & Trust International Ltd. order might have flowed from that conversation. He made no bargain with this man and was unable to explain where E. D. Sassoon Bank & Trust International Ltd. got the information

which enabled them to bid for precisely the right number of shares at the right price.

Under all these circumstances, we concluded that the part of the prospectus which describes the nature of the offering does not make full, true and plain disclosure concerning the offering. If the prospectus were permitted to stand, it would enable Tully Investments Limited to make the secondary offering. Accordingly, having concluded that the prospectus does not make full, true and plain disclosure and therefore the circumstances under Section 61 exist, we have ordered that all trading in the distribution to the public of the securities to which the Viewpoint Explorations Limited prospectus relates should cease. Viewpoint Explorations Limited have waived the statutory hearing which might otherwise be required under Section 62(2). These reasons have been issued at their request.

DATED at Toronto this 18th day of October, 1974.

By the Commission

IN THE MATTER OF THE SECURITIES ACT,
R.S.O. 1970, CHAPTER 426, AND AMENDMENTS THERETO

AND

IN THE MATTER OF PACIFIC COAST COIN EXCHANGE OF
CANADA LIMITED

AND

IN THE MATTER OF MONEX INTERNATIONAL, LTD. carrying
on business under the firm name and style of
PACIFIC COAST COIN EXCHANGE

Hearing: July 24th, August 20th and 21st, 1974

Present: H.S. Bray, Q.C., - Vice-Chairman
Professor S.M.D. Beck - Commissioner
T.A.M. Hutchison, F.C.A. - Commissioner

K.W. Scott, Q.C. and S. Scott -
Counsel to Pacific Coast Coin Exchange
of Canada Limited

Oliver Wanger of California - for
Pacific Coast Coin Exchange

Michael Bader - Staff Counsel

This hearing was convened pursuant to a notice dated July 5th, 1974 advising Pacific Coast Coin Exchange of Canada Limited (hereinafter called "Pacific Canada" that the Commission, pursuant to subsection 1 of Section 144 of The Securities Act, R.S.O. 1970, Chapter 426 as amended (the "Act"), would be considering issuing an order that all trading in securities issued by Pacific Canada should cease pending the filing and acceptance of

a prospectus relating to those securities and the registration of those trading in them. The evidence discloses that Pacific Canada acts as the agent for Monex International, Ltd. ("Monex") who, in turn, carries on business under the name "Pacific Coast Coin Exchange".

Since this hearing took the form of show cause proceedings the principal witness was Louis E. Carabini of California, the President and a principal shareholder of Monex. A number of documents used by Pacific Canada were filed including editions of brochures entitled "The Case for Silver - How to Protect your Assets against Inflation", "The Pacific Coast Coin Exchange - A Profile", "A Summary of the Pacific Coast Coin Exchange's Current Operations in Question and Answer Form", and a "Special Supplement" to Pacific Coast Coin Exchange's Gold & Silver Newsletter entitled "A Short Course in Silver Investing". These documents, coupled with the evidence of Mr. Carabini, were used to explain the function of a document used by Monex called the "Commodity Account Agreement" (hereinafter referred to as the "Agreement"). In addition we received the opinion evidence of Professor P. Cootner, an authority in the field of commodity trading and Professor Louis Loss who is recognized as a leading authority in the field of securities legislation and regulation. Richard Sell, Counsel to Monex in the State of Wisconsin, gave evidence as to proceedings currently in progress in that State. Oliver Wanger, Monex's California Counsel, appeared as agent for Monex, participated fully in the proceedings and introduced evidence concerning and commented upon proceedings currently in progress in the States of New York, Texas and Wisconsin. At our request we received the benefit of written argument from Monex's Ontario Counsel as well as Staff Counsel.

Monex, a California corporation incorporated in June, 1971, has its headquarters in Long Beach. Its predecessor was a small coin shop, purchased and operated in 1967 by a partnership consisting of Mr. Carabini, Dr. Neil Chamberlain, also of California, and a third man who died the

same year. The business grew during subsequent years but the turning point, according to Mr. Carabini, came when in May, 1969, it became lawful in the United States to melt silver coins for their silver content. This meant that the market or spot price of a bag of U.S. silver coins moved in concert with the spot price of the silver content of those coins.

A "bag" of coins is defined, in terms of the commodity trade in the Agreement, as a bag of U.S. silver coins melted in and dated 1964 or earlier whose face value amounts to \$1,000.00. This quantity of coins in lieu of their face value as currency can be melted to produce approximately 720 ounces of silver.

The business thrived. It grossed \$10,000,000 in 1970. In 1971, the year in which it became incorporated with Messrs. Carabini and Chamberlain as its controlling shareholders, it grossed \$30,000,000. 1972 saw it rise to \$70,000,000, in 1973, to \$273,000,000 with a similar pro rata expansion during the first half of 1974. As well as its headquarters in Long Beach, it now has thirteen branches in the United States, one in Frankfurt, Germany, and one in Toronto. For a brief period of time it had an office in London, England.

Pacific Canada, at the time of the hearing, was a Canadian company incorporated in 1973 with its head office in Toronto. It was then controlled by Messrs. Carabini and Chamberlain. Subsequently we were advised that it was the intention to make it a wholly owned subsidiary of Monex.

On the uncontradicted evidence of Mr. Carabini, Monex is professionally managed and utilizes the most efficient systems available to monitor its assets and liabilities, its hedging operations, the contracts it has undertaken with the public and its inventory position. Indeed much of the evidence adduced on behalf of Monex was directed to assuring us as to its viability and its ability to meet its contractual obligations as they became established by the investor in accordance with the overriding terms of the Agreement.

Although Monex holds registration under the California Commodity Law, which is a division of the California Corporation Code, as an "Exchange" it is clear from its method of doing business that in any accepted sense, that is in terms of stock exchanges or commodity exchanges, Monex is a dealer. It trades as a principal in gold and silver coins, silver, platinum and certain currencies. It purchases commodities and commodity contracts through commodity and metals exchanges and is a clearing member of the New York Merchantile Exchange. It offers these commodities to the public in the units specified through the definitions under the Agreement, including the "bags" of coins to which we earlier referred, on a cash basis. However, less than 10% of their sales are for cash on Mr. Carabini's evidence. More than 85% of the contracts entered into are through margin contracts (the "contract"). In less than 15% of these cases does the purchaser exercise his right under the contract to pay the contract out and take delivery of the specified units.

The emphasis in the brochures, the sales literature, is on silver. The Question and Answer Summary under the heading, "How do I purchase silver coins?" states,

"There are two ways to purchase U.S. silver coins from PCCE: outright or on margin. Basically, to purchase outright, you have to pay the full purchase price. To purchase on margin a down-payment of approximately 35% of the prevailing PCCE base price is currently required. This minimum downpayment may change from time to time."

In an earlier version of "The Case for Silver" the author, Mr. Carabini, under the heading "Your investment strategy" reviews the ways in which the reader might invest in silver. He explores the alternatives of investing in shares in a silver mining company, silver futures contracts, silver bullion, silver coins, concluding with "How to use margin". Mr. Carabini stated,

"As we've seen, U.S. silver coins offer both an opportunity for excellent profits and protection from inflation - all in a single investment.

You can buy U.S. silver coins outright or on margin. In a bull market as we have in silver, we believe it is wiser to use margin to gain greater leverage for profits. "

While this language has been modified in the most recent version of the brochure the reader's attention is directed in this, and other literature, to the pitfalls and limitations of the alternatives and the availability of the investment program, with its leverage, provided through the margin contracts.

It is this program to which we have directed our attention. We have not been concerned with the outright sale of coins, metals or currency by Monex. While we are urged to find that the margin contract is in essence a contract for commodities and not a security we are unable to accept this conclusion. Through the margin contract the investor is induced to advance money to Monex with the only security for his money being the contract subject to the Agreement. While the ultimate right of the investor under the contract is to demand the delivery of the units specified in the contract, the purchasee's investment under the margin contract is secured by the contract itself, governed as it is by the commodity account agreement which Monex requires the investor to execute before making his first purchase. From all of the evidence, including the literature, the terms and conditions of the Agreement and contract, and the percentage of the contracts which are liquidated without the investor requiring delivery of the unit, it is apparent that the object of the parties at the time the trade is concluded is the purchase and sale of the investment contract represented by the Agreement and contract. This intent is clearly demonstrated by the fact that over 85% of the margin contracts are

"cleared" or liquidated by the parties establishing a resultant loss or profit to the investor.

The trades are indexed in units. Monex fixes a "base price" for a unit, the price at which it is prepared to sell or purchase a unit. The purchaser must pay an additional "commission" of 2% of the base price while the investor "selling" his units back to Monex will have a 2% commission deducted from the base price. The "commission" is fixed under the Agreement by Monex. Where the investor enters a margin contract, the consideration which flows to this contract is firstly "margin" amounting to 35% of the base price, a "commission" of 2% of the base price, coupled with a continuing obligation to pay a "maintenance" or finance charges amounting currently to 11 1/2% of the "unpaid balance", the difference between the "base price" and the "margin" paid and an annual "service charge", called "storage or analogous charges" in the agreement, currently being \$10 for each bag of silver coins.

The merits of this complicated investment contract as opposed to the alternatives are difficult for an investor to assess from a reading of the documents, the literature and the Agreement. Monex's obligation to produce the units under the contract only exists if, as and when the investor pays the outstanding balance owing under the margin contract. Then and only then does the obligation to deliver units crystallize. To the point of time when he actually tenders the balance owing under the contract, including all of the continuing and collateral charges, the investor stands as a creditor of Monex and subject to whatever risks are inherent in that position. He receives no objective information, such as that provided by a prospectus, as to the nature and extent of the risk he is asked to assume.

In a minority of cases this contract or investment plan concludes through the payment for and the delivery of the units to the purchaser. In the substantial majority of cases, the contract is liquidated by the Purchaser through the arrangement specified in the Agreement and discussed in the literature. While Monex does not guarantee

this alternative it holds it out in the following language under the heading, "Can I buy from you or sell back to you at any time?". The answer to question 17 in the latest version of "The Case for Silver", states

"Our objective has been to make a continuous market in silver and the other commodities we sell during our hours of trading. In the past we have always made a market for our customers in which we acted as both buyer and seller.

While we do not intend to change this practice, we are under no contractual obligations to repurchase a customer's commodity, and we reserve the right, upon any given day and for any period of time to limit or refrain from either buying or selling commodities ..."

The example given in the literature of a PCCE Margin Account with American delivery demonstrates how an investor with \$10,000 available is able to contract for seven bags or units of silver coins under the investment plan. The total unpaid balance in the example given at the date of the investment is \$15,925. Until this amount is paid and any additional charges exigible under the contract the investor has no right to demand delivery of the seven bags of coins. The expectation of the investor, his \$10,000 now substantially disbursed for the margin contract, is that he will be able to liquidate his investment without any substantial additional capital outlay. To establish either a profit or loss on the contract he agrees to accept the base price for the unit fixed by Monex on the day of liquidation multiplied by the number of units specified in the contract less a "commission" of 2% of that amount. His credit thus established Monex then deducts the amount owing to it under the contract, being the balance of the original contract base price to which will be added the maintenance and service charges remaining unpaid.

The contract is therefore a complicated investment agreement through which the investor remains at risk until he receives the unit or any balance owing to him after the liquidation of the contract. The investor's security is the commodity account agreement executed by the company and the evidence of each margin contract entered into by the investor. Unless earlier terminated by the parties the life of the investment contract runs for five years from the date of the last purchase under the Agreement.

Because of the nature of this investment plan the importance of a prospectus relating to the affairs of the issuer and the security offered is obvious. Firstly, since the investor is at risk under the contract, he under the Act is required to be given a good deal of information about Monex and its assets and liabilities. The security being offered, the investment plan, must be objectively described. Not only must the prospectus contain full, true and plain disclosure of all material facts relating to the securities offered but, under section 61(1) of the Act before the Director can accept the prospectus for filing he must be satisfied that the issuer can meet the obligations it has undertaken. It is important too that the persons offering these contracts to the public should hold registration to trade in these securities.

Much of the evidence and opinion was directed to assuring us that the owners of Monex are honest and of good reputation and that Monex is in a position to meet its obligations as they become due. That is the uncontradicted evidence before us. It was also noted that Monex as an exchange was obliged to make weekly reports to the California Commodity authorities. While these facts are of some comfort, the California Commodity Law was enacted by the Governor of California in September, 1973, under his emergency powers to deal with what he conceived to be an urgent problem, trading in unregulated commodity contracts and, at the same time, the legislation brought under regulation this new phenomenon, the so-called "coin exchanges". The reporting regulation was introduced in January,

1974. Monex is complying fully with the requirements of California law.

While California chose to legislate this type of business through its commodity law her sister States of Texas, Wisconsin and New York all have brought action to declare the margin contracts to be investment contracts under their respective state laws. In none of these States has a final determination been made. However, it was apparent through the testimony of Professor Loss that the scheme of the Ontario legislation, through its definition of security, is to cast a wider net than at least some of the United States' jurisdictions. One has only to examine the definition of security in section 1(1)22, sub-clause ii,

"any document constituting evidence of title to or interest in the capital, assets, property, profits, earnings or royalties of any person or company"

and the categories of documents the Legislature felt it necessary to exempt from the registration and prospectus requirements through section 19 and section 58 of the Act to appreciate the scope of the definition. For instance, they believed it necessary to exempt trading in negotiable promissory notes or commercial paper maturing not more than one year from the date of issue under the defined circumstances set out in section 19(2)3 and section 58(2)(a) of the Act.

As noted previously we have concluded that the margin contract, subject as it is to the commodity account agreement, is a security and that the offer to enter into such a contract constitutes trading in securities within the meaning of the Act, and not trading in the commodity used to index the terms of that security. This is consistent with the view taken by Mr. Justice Hartt in Re O.S.C. v. Brigadoon Scotch Distributors (Canada) Ltd. (1970) 3 O.R. 714 where he found that the trading in warehouse receipts representing title to Scotch whisky was trading in securities, it being clear that the inducement to the purchaser was the profit the investor hoped he could make through trading in the piece

of paper, the warehouse receipt. The inducement to the investor in the present case is the leverage he may obtain by investing his available funds in the margin contract as opposed to the outright purchase of a lesser number of units for the same amount of money.

While we do not propose reviewing the United States' cases, on the plain meaning of the words the margin account is also an investment contract and therefore a security within the definition found in section 1(1)22 xiii. The only security for the investor's money is the commodity account agreement and margin contract which spells out the investment contract. Until the contract is liquidated he remains at risk. The investor is entitled to the protection of the prospectus and registration requirements of the Act. On October 11th, 1974, we ordered that all trading in securities of Monex International, Ltd. carrying on business under the firm name and style of Pacific Coast Coin Exchange should cease until such time as a prospectus relating to the distribution of the securities is submitted and accepted for filing by the Ontario Securities Commission in accordance with the Act. We did not think it necessary in the formal order to point out that anyone trading in these securities must either be registered or trade through one of the exemptions from registration once a prospectus has been accepted for filing.

BULLETIN

OF

ONTARIO SECURITIES COMMISSION

FOR

December, 1974

ONTARIO

Issued Monthly by the
ONTARIO SECURITIES COMMISSION
555 YONGE STREET, TORONTO, ONTARIO M4Y 1Y7

EXPLANATORY NOTES

Information contained in this report has been summarized from reports filed with the Commission.

The name of the issuer is followed by a brief description of the class of security, the name of the person or company reporting and his or its relationship to the issuer. If a person has an indirect interest in the securities reported, e.g., through holding companies, affiliate companies, partnerships, trusts or other entities, this is shown. Symbols are used in the column "Transaction and Ownership Symbol" to indicate the nature of ownership i.e., direct or indirect. Similarly the character of transactions is indicated provided the transactions are other than a purchase or sale. (See guide to symbols below):

GUIDE TO SYMBOLS

RELATIONSHIP

(appearing after the name reported)

- | | |
|------|--|
| "B" | —Beneficial Owner (direct or indirect) of equity shares of a corporation carrying more than 10% of the voting rights attached to all equity shares of the corporation outstanding. |
| "D" | —Director of principal company. |
| "DI" | —Director of a company which is an insider of the principal company. |
| "K" | —Exercises control or direction (direct or indirect) of equity shares of a corporation carrying more than 10% of the voting rights attached to all equity shares of the corporation outstanding. |
| "S" | —Senior Officer of principal company. |
| "SI" | —Senior Officer of a company which is an insider of the principal company. |

NATURE OF OWNERSHIP

- | | |
|------------|--|
| No symbol | —Securities are beneficially owned directly. |
| Symbol # 1 | —Securities are beneficially owned by the reporting person or company and held by a company partnership, trust or other entity. |
| Symbol # 2 | —Reports filed by companies, persons, partnership, trusts, associations, etc., who are the beneficial owners and are not, under the definition of an insider, related to any director, senior officer or other beneficial owner of the securities of the issuer. |

CHARACTER OF TRANSACTION

- | | | | |
|-----------|---------------------------|-----|-----------------------------|
| No symbol | —purchase or sale | "M" | —internal transfer |
| "A" | —bequest or inheritance | "Q" | —qualifying share |
| "C" | —compensation | "R" | —redeemed (called, Matured) |
| "E" | —exchange or conversion | "T" | —stock dividend |
| "F" | —exercise of rights, etc. | "V" | —stock split |
| "G" | —gift | "X" | —exercise of option |
| "IR" | —initial report | "Z" | —distribution |

*Returned for reconciliation purposes.

Notice

PRESS RELEASE

The Honourable John Clement, Minister of Consumer and Commercial Relations, has announced the internal transfer of two senior executives within the Ministry. Mr. Clement said that effective 15th January, 1975, Mr. Benson Howard will move from his post of Director of the Ontario Securities Commission to become Executive Director of the Companies Division, while Mr. Charles Salter, Q.C., currently Executive Director of the Companies Division, will become Director of the Ontario Securities Commission.

Mr. Howard, a 1943 graduate of the University of Toronto, served overseas and on discharge completed his legal education at Osgoode Hall. He was called to the Bar in 1949. In December 1965, he joined the Ontario Securities Commission as Investigation Counsel, was appointed Chief Legal Investigation Officer in March of 1967 and became Director of the Commission in August of 1970.

Mr. Salter also graduated from Osgoode, was called to the Bar in 1957 and appointed Queen's Counsel in 1970. Mr. Salter joined Companies Division as Senior Legal Officer in 1968, subsequently served as Deputy Director and was appointed Executive Director of the Division in April of 1972. During his previous work in private practice, Mr. Salter concentrated in securities work and allied corporate matters.

Statement of Commission Policy

ONTARIO SECURITIES COMMISSION POLICY NO. 3-02

FINANCING OF MINING AND OIL COMPANIES

(REVISED POLICY)

Policies are guidelines only. The Commission and the Director will exercise their discretion to meet special or unusual circumstances. This will be particularly true where an issuer is engaged in the exploration and development of both mining and oil-natural gas properties.

Where the securities of the issuer are listed, the appropriate stock exchange will be consulted.

UNDERWRITING AND OPTION AGREEMENTS

- (1) No shares shall be issued to net less than 15¢ per share or its equivalent in goods and services to the treasury. Under normal circumstances a subsequent financing shall not be entered into which will net the treasury less than the last price received by it. Where the issue is not new, the Director may exercise his discretion to require a greater or lesser price, provided in no event shall the net to the treasury be less than 15¢ per share.
- (2) Options on securities will not be permitted unless there is a firm underwriting for not less than 200,000 shares to net the treasury a minimum of \$30,000.00.
- (3) An underwriting shall be payable at least within three business days of the receipt issued for the prospectus.
- (4) Not more than 200,000 shares may be underwritten at the minimum price of 15¢ per share. Not more than 200,000 shares and not less than 100,000 shares shall be optioned at each

of the successive prices. The total number of shares underwritten and optioned in any one agreement shall not exceed one million shares.

- (5) If the shares are underwritten at a price substantially higher than the minimum set out in (1) the Director will consider an application for permission to stipulate terms which differ from (4) if special circumstances exist.
- (6)
 - (a) Where there is an established market price for the shares, consideration will be given to that price in determining whether the underwriting option agreement is acceptable.
 - (b) The time for exercising the first option shall not be later than three months following the date of the receipt issued for the prospectus and each additional option must be completed within a further three months providing that options must be exercised within one year of the date of the receipt issued for a prospectus.
 - (c) Subject to (b), one extension of an option will be considered under special circumstances at the discretion of the Director.
- (7) There shall be at least a five cent spread between each price from 15¢ to 50¢, at least a 10¢ spread between each price from 50¢ to \$1.00, and at least a 25¢ spread between each price thereafter.
- (8) The price at which shares are sold by an underwriter/optionee to a sub-underwriter/optionee shall not be in excess of one cent per share above the price paid by the underwriter/optionee to the company.

- (9) Unless the company is financed to production on the property for which vendor's shares were issued, and where the shares of the company are not listed for trading on the Toronto Stock Exchange, free vendor shares shall not be offered for sale as part of or immediately following a treasury financing unless and until all of the shares covered by the underwriting/option agreement have been taken down by the underwriter from the issuer.

In no event shall free shares be sold as part of or following a treasury offering unless and until a minimum of 200,000 treasury shares have been sold.

- (10) Generally an offer by a selling shareholder shall not be proceeded with under a prospectus where any option permitted under paragraphs (4) and (5) has not been exercised and all of the shares underwritten and optioned have not been sold.

'BEST EFFORTS' FINANCING

Financing on a 'best efforts' basis through registrants or by the company as a security issuer is acceptable provided:

- (1) A minimum amount is clearly established which will carry out the objects set out in the prospectus which shall not be less than \$30,000.00 in any event.
- (2) All of the proceeds are held by a Trustee acceptable to the Director, which will usually be a licensed trust company.
- (3) The Trustee will not transmit these funds to the company until such time as the minimum required has been reached or, alternatively, where the minimum is not reached within the time specified in the prospectus, the Trustee will then return the subscriptions to the subscriber without any deductions.

- (4) A 'best efforts' offering will not be considered unreasonable normally if it remains open for 90 days, provided the Director shall have discretion to shorten the period or, during the term of the offering to extend the period upon such terms and conditions as he may impose.
- (5) The minimum amount required to be provided to the Trustee shall take into account not only the amount required to carry out the first phase of the programme and, in addition, an amount not exceeding 40% of the gross amount paid by the public to defray commissions, selling and other administrative expenses.
- (6) The agreement with the Trustee shall be in writing and a copy of the executed agreement shall be filed with the prospectus.
- (7) Free vendor shares may not be sold as part of or within 90 days of the completion of a 'best efforts' offer.

MAXIMUM OFFERING PRICES

TAKE-DOWN PRICE

MAXIMUM OFFERING PRICE WHERE THE TOTAL (INCLUDING OPTIONED SHARES) TO BE RECEIVED FROM THE PUBLIC IS LESS THAN \$250,000.

.15	.30
.20	.40
.25	.50
.30	.60
.35	.65
.40	.75
.45	.80
.50	.85
.60	.95
.70	1.05
.80	1.20
.90	1.35
1.00	1.50

1.10	1.65
1.20	1.75
1.30	1.90
1.40	2.00
1.50	2.15
1.60	2.25
1.70	2.40
1.80	2.50
1.90	2.65
2.00	2.75
2.10	2.85
2.20	2.95
2.30	3.05
2.40	3.15
2.50	3.25
2.60	3.35
2.70	3.45
2.80	3.55
2.90	3.65
3.00	3.75

Where the total amount (including optioned shares) to be received from the public is \$250,000 and over, the maximum mark-up permitted on each share is 25%.

The first in and first out principle shall apply so that all securities at one price in an underwriting must be sold before securities at the next price can be sold.

This schedule of maximum offering prices shall apply only to mining and oil company prospectuses and applies only to issues on the 'unlisted' and Over-the-Counter Trading Market.

EXPLORATION COMPANIES

A company which proposes to participate primarily in exploration for new properties should have a liquid position after deducting the costs of financing of at least \$100,000.00 available for this purpose.

OFFERING OF WARRANTS

Warrants should not be offered by a mining or oil company unless there is evidence acceptable to the Director that the property which the company owns and is developing is of better than average merit.

Statement of Commission Policy

ONTARIO SECURITIES COMMISSION POLICY NO. 3-03

MINING AND OIL COMPANIES:

REVISED

VENDOR CONSIDERATION, RETAINED INTERESTS, ESCROW
AGREEMENTS, TRANSFERS AND RELEASES FROM ESCROW,
AMALGAMATION AND ESCROWED SHARES

IN GENERAL

The policies set out below are guidelines only and the Director and the Commission will exercise their discretion to meet special or unusual circumstances. This will be particularly true where the company is engaged in the exploration and development of both mining and oil and natural gas properties. Where the securities of the company are listed, the appropriate stock exchange will be consulted.

VENDOR CONSIDERATION

1. All vendor shares shall be in escrow.
2. The vendor will not be permitted to apply a 'cash' consideration against the purchase of 'free' treasury shares.
3. Subject to 4 and 5 in a mining company having an authorized capital of 3,000,000 shares or greater the maximum number of shares to be permitted for the outright purchase of mining properties or claims shall not exceed 750,000 shares. If the authorized capital of the company is less than 3,000,000 shares, the maximum allowable vendor consideration will be reduced pro rata to the total authorized capital.
4. Where the vendor, after acquiring the property, has expended money on it in exploration and

development, which is demonstrated in the consultant's report to be of continuing benefit to the company, additional share consideration may be considered paralleled with underwriting and option prices or the net price to the treasury in the case of a best efforts offering. The cost of staking, preliminary examination and other related costs incurred by the vendor in determining whether to acquire the property shall not be included for the purpose of considering additional consideration. These additional vendor shares will be escrowed on the same basis as the basic vendor shares.

5. Where there is cash consideration for the properties purchased, the number of vendor shares will be reduced paralleled with the minimum underwriting and option prices or the proposed net price to the treasury in the case of a best efforts offering. The number of shares available to be released from escrow as 'free' vendor shares will first be eliminated by reducing the allowable vendor consideration by one share for the cash consideration netted by the treasury for one share to the maximum number of free shares allowed. In the event there are insufficient free shares, the pro rata reduction will be two escrowed shares.

RETAINED INTEREST BY THE VENDOR

Unless explained to the satisfaction of the Director the vendor, or any insider, associate, affiliate, subsidiary of the vendor, shall not retain any interest in the property vended or in any property adjacent or contiguous to the property vended.

RELEASE OF VENDOR SHARES FROM ESCROW

(1) Initial Release

In the case of mining companies where there

has been no cash consideration, 10% of the vendor's share interest will automatically be released from escrow when the firm underwriting commitment has been paid or, alternatively, when the minimum subscription required in a 'best efforts' offering has been reached, or such lesser amount as may be available giving effect to the reductions provided for in paragraph 3, Vendor Consideration.

(2) Subsequent Releases

Applications for the release of additional shares from escrow may be made by the owners of those shares where the owners are able to demonstrate that the value of the property for which the shares were issued has been enhanced by the exploration and development work performed since the last release from escrow.

(3) Supporting Evidence

In order to assist the Commission in reaching its conclusions, the applicants should furnish:

- (a) in the case of the initial release
 - (1) proof that the company has received the minimum financing; and
- (b) in the case of subsequent applications for releases (2), engineers' reports, supporting data, financial statements, vouchers, etc. verifying the nature and extent of the expenditures made on the property and the actual progress. The Commission will also be concerned as to the financial ability of the company to continue the programme. Evidence of additional financing should also be submitted.

The work upon which the claim for release is based must be performed by or on behalf of

the present owners of the property. The Commission will be assisted by the unqualified conclusions and recommendations of a mining engineer or geologist, whose reports would normally be acceptable to it.

(4) Grounds for Release

The exploration programme upon which the initial financing was predicated must result in a minimum expenditure of \$15,000-\$20,000 in the case of previously unexplored and undeveloped property. In subsequent applications, or where the property has further advanced, the required expenditure will be larger. Three conditions must exist before any further release will be considered: firstly, progress must be demonstrated; secondly, the engineering report must recommend and give cost estimates for the next phase in the ongoing exploration or development programme; and thirdly, the financing of the next phase of the development must be assured.

Where the underwriting is dependent upon a bonus of free vendor shares being donated by their owners for this purpose, the release from escrow will not be granted until the firm commitment has been met.

(5) Basis for Release

Assuming adequate grounds for release have been made out, the Commission proposes applying the following yardsticks under normal circumstances:

- (a) Assuming the maximum vendor consideration of 750,000 escrowed shares has been paid for the property, 75,000 shares will be released upon proof that the company has received either the firm underwriting or the minimum subscriptions necessary to carry out the initial exploration or development programme.

- (b) The remaining 675,000 shares will be apportioned, for the purposes of release, into three blocks of 225,000 shares. Applications for part or all of the first block will be considered during the exploration stage, for the second block (and the residue of the first block, if any) during the development stage, and for the remainder, when the financing of the property for which the securities were issued to production is assured.
- (c) Subject to the conditions set out in (4), the 225,000 shares available during the exploration stage may be released at the rate of one share for each \$1.00 actually spent in exploring the property (including exploratory diamond drilling).
- (d) Subject to the conditions set out in (4), the shares available during the development stage may be released at the rate of one share for each \$2.00 actually spent in developing the property through diamond drilling or other development work.
- (e) The balance of the escrowed shares will either be released completely from escrow when the property is financed to production, or in due course will be returned under the terms of the escrow agreement for the benefit of the company.

TRANSFERS WITHIN ESCROW

Consents to transfers within escrow will normally be granted where:

- (1) The transfer will be of benefit to the shareholders generally.
- (2) The transfer is necessary to settle an estate.

- (3) The transfer will not result in a change of beneficial ownership. Or
- (4) Where the proposed transfer represents a number of shares less than one per cent of the issued and outstanding shares of the company concerned and the transferor has not made any transfer of escrowed shares within the preceding twelve months.

The applicant for transfer must furnish the Commission with full details as to the circumstances leading to the request for permission to transfer. The consent of all or a majority of the shareholders to the proposed transfer may be required.

OIL AND NATURAL GAS COMPANIES

- (1) (a) In the case of oil and natural gas companies all the vendor consideration shall be held in escrow;
- (b) for the purposes of the following:
 - (i) references to a shallow well or field may be interpreted as of approximately 2,000 ft. depth or less, a deep well or field may be interpreted as of approximately 5,000 ft. or more;
 - (ii) references to a well as being completed and 'ready for production' shall be interpreted to mean ready and capable of economic production. This must be supported by an independent geologist's report.
- (2) 5% of the vendors shares may be released from escrow when a company operating in a shallow field is fully financed to drill one well and a drilling contract has been entered into therefor.

- (3) 20% of the vendor shares may be released from escrow when a company operating in a deep field is fully financed to drill one well and has allocated an amount of \$100,000 for that purpose and a drilling contract has been entered into therefor.
- (4) An additional 6% may be released for each shallow well completed and ready for production or 20% may be released for each deep well ready for production. Sufficient completions may result in a full release of all escrowed stock.
- (5) The Commission will exercise its discretion in the release from escrow of vendor's shares of oil and/or natural gas companies.
- (6) The releases above are based on 100% ownership and will be reduced pro rata for any lesser interest.
